## SECTION 2 SCOPE OF SERVICES

### 2.1 Scope of Services

The Kansas City Area Transportation authority (KCATA) is soliciting proposals from experienced turnkey vanpool providers to assist KCATA with expanding its vanpool program in accordance with the requirements and provisions stated herein.

The term of this agreement shall be for a period of three (3) years with two (2) one-year extension options.

#### a) **Introduction**

KCATA's RideKC Vanpool program began in 1998 (then called AdVANTage vanpool) with one vanpool. The program was transitioned in 2016 to a contractor and is now a regional program with approximately 20 active vanpools in operation (the number decreased due to the pandemic). An attachment will show vanpool data for 2019 through August 31, 2021.

#### b) **Current Policies and Definitions**

- A vanpool is a group of individuals who agree to share a ride daily
- The vanpool driver is a volunteer from within the group, using the van for transportation to/from work
- The vanpool driver shall not be paid a wage by the vanpool group, his/her employer, or any third party in exchange for driving the vanpool vehicle
- All vans must be open to the public, should any person desire to ride in a vanpool serving their work trip commute (space permitting), including those with disabilities
- The current program allows the vanpool drivers up to 500 non-commute miles per month

#### c) **Ownership and Operation of Vanpool Fleet**

KCATA does not wish to own, maintain, license, or insure vanpool vehicles. Respondents shall describe their capabilities to own, operate, maintain, and support the fleet for the vanpool program

#### d) **Vehicles – Specification, Acquisition, Provision**

The respondents will respond to or describe how:

1. The vehicles utilized in the vanpool program shall meet all applicable Federal Motor Vehicle Safety Standards as of the date of manufacture. The proposer will provide the vehicles to be used in the program. These vehicles will be no more than two (2) years old and have fewer than thirty thousand (30,000) miles on them at the start of the program. The fleet will consist of passenger vehicles configured to seat seven (7) to fifteen (15) passengers. All other specifications will be standard for these vehicles.
2. There will be a requirement for signage/decals in the vehicles, including RideKC branding on the exterior of all vehicles in operation (proper imaging specs will be provided by the KCATA Marketing Department). They will have an interior No Smoking decal. All vehicle markings shall be subject to approval by KCATA.

3. The vehicles will be required to have a reflective safety triangle kit (as approved by DOT), first aid kit to be located under the driver or passenger seat and a 5 lb. fire extinguisher (ABC or approved equivalent) with metal head including vehicle bracket to be installed on the floor of the vehicle.
4. Propose vehicle types and availability accommodating 7, 8, 11 and 12 passengers, including the make/model type for each size.
5. Guarantee availability of vehicles as demand expands and needs arise for more vehicles.
6. Comply with any Buy America requirements (if required) for vehicles to qualify for federal subsidies (if necessary).
7. ADA compliant vehicles – describe your ability to provide enough accessible vehicles to meet the needs of passengers who use mobility devices and/or require ADA vehicle accommodations. This does not mean that all vehicles must be ADA accessible, but only that the needs are met so that passengers with ADA mobility issues are not excluded from participating in the vanpool program.
8. Services including, but not limited to, shuttles for maintenance, vehicle switch outs, delivery to new drivers, and pick up of vehicles when a van pool group has been disbanded.
9. Manage printing and application of RideKC vanpool graphics on each new vehicle that is placed into service. Respondents shall specifically address how the costs of this would be covered.

### s) External Service Providers – Agency Safety Plan

KCATA's External Service Providers (ESPs) must develop an Agency Safety Plan (ASP) for the mode(s) of service that the ESP operates.

ESPs must develop an ASP including, but not limited to, the following provisions:

1. The ASP must document the contractor's SMS process and activities that meets the minimum requirements of 49 CFR Part 673 and any other relevant regulations and provisions. The ESP must update their ASP on a yearly basis to incorporate any new or updated requirements as stipulated by the FTA, KCATA, and any other regulatory agency.
2. The ESPs must certify that they have complied with Part 673 through FTA's Certifications and Assurances process.
3. KCATA's ESPs are contractually obligated to have a formal Employee Safety Reporting Program (ESRP). KCATA's Director of Mobility Services will perform on-site monitoring of the contractor's ESRP to ensure that it meets program requirements established by KCATA.
4. KCATA's ESP is contractually obligated to have a formal SRM process and to identify hazards and consequences. KCATA requires monthly summary reports regarding hazards and consequences identified by the contractor and their sources. KCATA's Director of Mobility Services, in coordination with KCATA's Chief Safety Officer, will perform on-site monitoring of the contractor's SRM process to ensure that it meets program requirements established by KCATA.

2. If the termination is for failure of the Contractor to fulfill the contract obligations, KCATA may complete the work by contract or otherwise and the Contractor shall be liable for any additional cost incurred by KCATA. If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, KCATA, after setting up a new delivery or performance schedule, may allow the Contractor to continue work, or treat the termination as a termination for convenience.

In such case, the written notice of termination will state the time period in which cure is permitted and other appropriate conditions. If Contractor fails to remedy to KCATA's satisfaction the breach or default of any of the terms, covenants, or conditions of this Contract within the time period permitted, KCATA shall have the right to terminate the Contract without any further obligation to Contractor. - B. **Notification of Delays.** The Contractor shall notify the Director of Procurement as soon as the Contractor has, or should have, knowledge that an event has occurred which will cause an unavoidable delay. Within five (5) days, the Contractor shall confirm such notice in writing, furnishing as much as detail as is available.

The Director of Procurement shall notify the Contractor of its decision in writing.

- D. Part 26 in the award and administration of this DOT-assisted contract. Each subcontract the Contractor signs with a subcontractor must include the assurance in this paragraph (see 49 C.F.R. 26.13(b)).
  4. The Contractor may not substitute, remove or terminate a DBE subcontractor without KCATA's prior written consent. Written consent of termination may only be given if the Contractor has demonstrated good cause. Before submitting its request to terminate or substitute a DBE subcontractor, the Prime Contractor must give notice in writing to the DBE subcontractor, with a copy to KCATA, of its intent to request to terminate and/or substitute, and the reason for the request. The Contractor must give the DBE five days to respond to the Contractor's notice and advise KCATA and the Contractor of the reasons, if any, why it objects to the proposed termination of its subcontract and why KCATA should not approve the Contractor's action. If required in a particular case as a matter of public necessity (e.g., safety), the response period may be shortened.
    - a. Good Cause. Good cause includes the following circumstances:
      - 1) The listed DBE subcontractor fails or refuses to execute a written contract; or
      - 2) The listed DBE subcontractor fails or refuses to perform the work to its normal industry standards. Provided, however, that the good cause does not exist if the failure or refusal of the DBE subcontractor to perform its work on the subcontract results from the bad faith or discriminatory action of the Prime Contractor; or
      1. The listed DBE subcontractor fails or refuses to meet the Prime Contractor's reasonable, nondiscriminatory bond requirements; or
      2. The listed DBE subcontractor becomes bankrupt, insolvent, or exhibits credit unworthiness; or
      3. The listed DBE subcontractor is ineligible to work on public works projects because of suspension and debarment proceedings pursuant to 2 CFR Parts 180, 215 and 1200 or applicable state law; or
      4. The DBE subcontractor is not a responsible contractor; or
      5. The listed DBE subcontractor voluntarily withdraws from the project and provides the Prime Contractor written notice of its withdrawal;
      6. The listed DBE is ineligible to receive DBE credit for the type of work required;
      7. A DBE owner dies or becomes disabled with the result that the listed DBE contractor is unable to complete its work on the contract;

8. Other documented good cause that compels KCATA to terminate the DBE subcontractor. Provided the good cause does not exist if the Prime contractor seeks to terminate a DBE it relied upon to obtain the contract so that the Prime Contractor can self-perform the work for which the DBE contractor was engaged or so that the Prime Contractor can substitute another DBE or non-DBE contractor.

b. Before submitting its request to terminate or substitute a DBE subcontractor, the Prime Contractor must give notice in writing to the DBE subcontractor, with a copy to KCATA, of its intent to request to terminate and/or substitute, and the reason for the request. The Prime Contractor must give the DBE five days to respond to the Prime Contractor's notice and advise the KCATA and the Contractor of the reasons, if any, why it objects to the proposed termination of its subcontract and why KCATA should not approve the Prime Contractor's action. If required in a particular case as a matter of public necessity (e.g., safety), the response period may be shortened.

D. **Disclaimer of Federal Government Obligation or Liability.** The Contractor, and any subcontractors acknowledge and agree that, notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of this contract, absent the express written consent by the Federal Government, the Federal Government is not a party to this contract and shall not be subject to any obligations or liabilities to the Contractor, or any other party (whether or not a party to this Contract) pertaining to any matter resulting from this Contract. It is further agreed that the clause shall be included in each subcontract and shall not be modified, except to identify the subcontractor who will be subject to its provision.

In addition to other penalties that may be applicable, the Contractor further acknowledges that if it makes a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986 on the Contractor to the extent the Federal Government deems appropriate.
2. The Contractor also acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government in connection with this Contract, the Government reserves the right to impose on the Contractor the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307(n)(1), to the extent the Federal Government deems appropriate.
3. The Contractor agrees to include these clauses in each subcontract, and it is further agreed that the clauses shall not be modified, except to identify the subcontractor who will be subject to the provisions.

All contractual provisions required by DOT, as set forth in FTA Circular 4220.1F or any revision thereto, are hereby incorporated by reference. Anything to the contrary herein notwithstanding, all FTA mandated terms shall be deemed to control in the event of a conflict with other provisions contained in the Contract. Contractor shall not perform any act, fail to perform any act, or refuse to comply with any KCATA requests that would cause KCATA to be in violation of the FTA terms and conditions. The Contractor agrees to include this clause in all subcontracts at any tier. It is further agreed that the clause shall not be modified, except to identify the subcontractors who will be subject to the provision.

**H. Lobbying Restrictions.**

1. The Contractor is bound by its certification contained in its offer to the Authority regarding the use of federal or non-federal funds to influence, or attempt to influence any federal officer or employee regarding the award, execution, continuation, or any similar action of any federal grant or other activities as defined in 31 U.S.C. 1352, 2 C.F.R. § 200.450, 2 C.F.R. part 200 appendix II (J) and 49 CFR Part 20. The Contractor agrees to comply with this requirement throughout the term of the Contract.

2. The Contractor agrees to include these requirements in all subcontracts at all tiers exceeding \$100,000 and to obtain the same certification and disclosure from all subcontractors (at all tiers).

I. **Patents, Rights in Data and Copyrights**

1. Rights in Data.

- a. The term "subject data" used in this clause means recorded information, whether or not copyrighted, that is delivered or specified to be delivered under the Contract. The term includes graphic or pictorial delineation in media such as drawings or photographs; text in specifications or related performance or design-type documents; machine forms such as punched cards, magnetic tape, or computer memory printouts, and information retained in computer memory. The term "subject data" does not include financial reports, cost analyses, and similar information incidental to contract administration.
- b. The following restrictions apply to all subject data first produced in the performance of the Contract:
  - 1) Except for its own internal use, Contractor may not publish or reproduce subject data in whole or in part or in any manner or form, nor may Contractor authorize others to do so, without the written consent of KCATA, until such time as KCATA may have either released or approved the release of such data to the public.
  - 2) In accordance with 2 C.F.R. part 200, Appendix II (F) and 37 C.F.R. part 401, the Federal Government reserves a royalty-free, non-exclusive and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use, the following subject data for "Federal Government purposes":
    - (a) Any subject data developed under the Contract, whether or not a copyright has been obtained; and
    - (b) Any rights of copyright purchased by KCATA or Contractor using Federal assistance in whole or in part provided by FTA.
  - 3) "For Federal Government Purposes" means use only for the direct purpose of the Federal Government. Without the copyright owner's consent, the Federal Government may not extend its Federal license to any other party. When FTA awards Federal assistance for experimental, developmental, or research work, it is FTA's general intention to increase transportation knowledge available to the public, rather than to restrict the benefits resulting from the work to participants in that work. Therefore, unless FTA determines otherwise, Contractor performing experimental, developmental, or research work, agrees to permit FTA to make available to the public, either FTA's license in the copyright to any subject data developed in the course of the Contract, or a copy of the subject data first produced under the Contract for which a copyright has not been obtained. If the experimental, developmental, or research work, which is the subject of the underlying Contract, is not completed for any reason whatsoever, all data developed under this Contract shall become subject data as defined previously and shall be delivered as the Federal Government may direct. This subsection, however, does not apply to adaptations of automatic data processing equipment or programs for the KCATA or Contractor's use whose costs are financed in whole or part with Federal assistance provided by FTA for transportation capital projects.
  - 4) Unless prohibited by state law, Contractor agrees to indemnify, save, and hold harmless KCATA and the Federal Government, its officers, agents, and employees acting within the scope of their official duties against any liability, including costs and expenses, resulting

from any willful or intentional violation by the Contractor of proprietary rights, copyrights, or rights of privacy, arising out of the publication, translation, reproduction, delivery, use or disposition of any data furnished under this Contract. The Contractor shall not be required to indemnify the Federal Government for any such liability arising out of the wrongful act of any employee, official, or agents of the Federal Government.

- 5) Nothing contained in this clause on rights in data shall imply a license to the KCATA or to the Federal Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to KCATA or to the Federal Government under any patent.
- 6) Data developed by the KCATA or Contractor and financed entirely without using Federal assistance provided by the Federal Government that has been incorporated into work required by this Contract to which this clause has been added is exempt from the requirements of subsections (b), (c), and (d) of this clause, provided that the KCATA or Contractor identifies that data in writing at the time of delivery of the contract work.
- 7) Contractor agrees to include these requirements in each subcontract for experimental, developmental, or research work funded in whole or in part with federal assistance.

K. **Prohibition of Certain Telecommunications and Video Surveillance Equipment.** Contractor represents that it is and will be compliant at all times with 2 CFR § 200.216 and will not provide telecommunications and/or video surveillance services or equipment to the KCATA in the performance of any contract, subcontract or other contractual instrument resulting from a solicitation or RFP that have been manufactured by a supplier (including any subsidiary or affiliate of those entities) that is considered prohibited or not approved under this regulation. This statute is not limited to entities that use end-products produced by those companies; and also covers the use of any equipment, system, or services that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

#### 40. **TRANSIT OPERATIONS RESTRICTIONS**

A. **Charter Service Operation.** The Contractor agrees to comply with 49 U.S.C. § 5323(d) and FTA regulations, "Charter Service," 49 CFR Part 604, which provide that recipients and sub-recipients of FTA assistance are prohibited from providing charter service using federally funded equipment or facilities if there is at least one private charter operator willing and able to provide the service, except under one of the exceptions at 49 CFR 604.9. Any charter service agreement required by these regulations is incorporated by reference and made part of this Agreement.

#### B. **Alcohol Misuse and Prohibited Drug Use**

- a. The Contractor agrees to establish and implement a drug and alcohol testing program that complies with 49 CFR Part 655 of the United States Department of Transportation and Federal Transit Administration Regulations. The Contractor agrees to produce any documentation necessary to establish its compliance with Parts 40 and Part 655 and permit any authorized representative of the United States Department of Transportation, the Federal Transit Administration or KCATA, to inspect all collection and testing facilities, to review all records associated with the implementation of the drug and alcohol testing program and audit and review the testing process as required under 49 CFR Part 40 and Part 655.
- b. If the Contractor is unwilling or unable to comply with the regulations, KCATA reserves the right to discontinue using the Contractor for safety-sensitive duties. Contractors that bid on safety-sensitive work will be considered non-responsive if they do not have or are not able to supply documentation that a DOT/FTA compliant drug and alcohol-testing program has been established.

C. **Reporting Requirements.** The Contractor agrees to collect and maintain all data, using proper procedures, requested by KCATA for compliance with the "Uniform System of Accounts and Records and Reporting

System," 49 C.F.R. Part 630, which includes various reports required to FTA's national transit database. The Contractor shall submit the requested.

**41. UNITED STATES PRODUCT AND SERVICE PREFERENCE.**

**A. Buy America.**

1. The Contractor agrees to comply with 49 U.S.C. §5323(j), and 49 CFR. Part 661, which provide that federal funds may not be obligated unless steel, iron, and manufactured products used in FTA-funded projects are produced in the United States, unless a waiver has been granted by FTA or the product is subject to a general waiver. General waivers are listed in 49 CFR 661.7 and include final assembly in the United States for 15 passenger vans and 15 passenger wagons produced by Chrysler Corporation, microcomputer equipment & software. Separate requirements for rolling stock are set out at 5323(j)(2)(C) and 49 CFR Part 661.11. Rolling stock not subject to a general waiver must be manufactured in the United States and have a 60 percent domestic content.
  
2. The Contractor further agrees to include these requirements in all subcontracts exceeding \$150,000.
